

## Makeshift Elmo/Document Cam for recording Math (or more)

Hey Math Teachers,

After talking with you guys today, stopped by Walmart to pick up stuff for dinner and a crazy idea came to me in the spaghetti isle.....**If you are in a pinch and need to record a lesson BUT don't have a computer, Elmo, Document Cam, or SmartBoard....no worries.** All you need is:

- Smartphone (with OneDrive app installed)
- Paper and pen
- Small trashcan (see pic for why)
- Another pen (see pic for why)
- And a box of spaghetti (see pic for why)

Watch this very short Video example:  [Make-shift Elmo \(smartphone, trashcan, and spaghetti box.mp4](#)

See Picture of the setup:  [Make-shift Elmo \(smartphone, trashcan, and spaghetti box.jpg](#)

When done ~~creating~~ creating, just upload to your OneDrive (or Stream) and put its Share Link in your Teams. 😊
