

8th Grade Math

Dixon Middle School

August 2023

Welcome to 8th grade math, a Pre-Algebra course designed to get the students ready for Math 1.

Information and instructions for math class will be on Teams. Because Math topics build on themselves, it is important for students to keep up with their lessons.

If daily work is not completed in class, it is the student's responsibility to have it finished by the time they get to school the next day. We go over this work as a class, and it will not be accepted late. Daily work includes iReady Classroom workbook pages and iReady activities.

Students will also have unit assignments (Comprehension Checks, Projects, etc) with specific due dates. These assignments fall under our 5 day late work policy.

iReady Pathway is an integral component of our curriculum. Students will be required to pass two pathway lessons per week.

Students will receive an iReady Classroom Book. We will use this book regularly. They need to keep them in their backpacks.

Absent?

First...Check TEAMS

Second...Ask a peer

Finally...Ask Mrs. Rollins

Remind code for Math:

Text @2324dmmath to the number 81010

Grading:

- Daily Work 20%
- Unit Assignments 20%
- iReady Pathway 15%
