

# Math 3 Syllabus

Stephanie Williams

Stephanie.williams@onslow.k12.nc.us

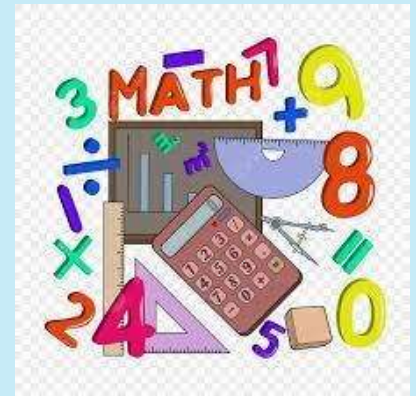

## Welcome!

Welcome to the 2023-2024 school year. I am excited to start our journey together. I look forward to getting to know you and helping you grow in your math abilities.

## What is Math 3?

Math 3 is a blended math course that covers topics in Algebra and Geometry. The topics for Algebra include: Functions, Exponential and Logarithmic Functions, Trigonometric Functions, Polynomial Functions, and Rational Functions. The topics for Geometry include: Volume of 3D figures, triangles, and circles. There is also a unit on Statistics.

## Grading Policy

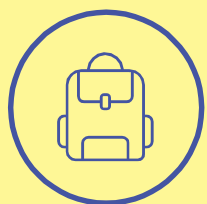

Warm Ups - 10%  
Classwork - 50%  
Tests - 40%

## Supplies

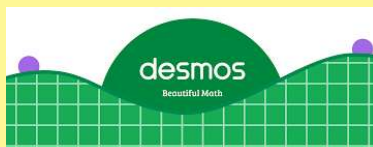

Folder  
Pencils/Pens  
Workbook (Provided)

**“Mistakes  
are proof  
that you are  
trying.”**

Please bring your laptop to class daily. We will incorporate a lot of technology in class. You will use an online calculator as well. Please bring your charger in case it is needed.

Cell Phones are not allowed during instructional time. I will need your undivided attention during notes and instruction. We will follow the new board policy on cell phones.

## TECHNOLOGY

### CLASS EXPECTATIONS

- ❖ Be on time with all materials ready.
- ❖ Participate daily and keep a POSITIVE attitude.
- ❖ Work hard on all assignments.
- ❖ Keep your area clean. Pick up all trash!
- ❖ Ask lots of questions!!
- ❖ Participate in your learning.
- ❖ No lotions or sprays (I am allergic to fragrances).

### Tutoring

Tutoring will be available during PowerHour. Please take advantage of PowerHour if you feel that you are falling behind and need extra help. If you are missing assignments, PowerHour is your opportunity to make them up. If you do not maintain a passing grade in this course, then you will be required to attend tutoring.

Math can be a challenge. All that I ask of you is to try every day. Mistakes help you grow and help you to develop strong math skills. Please do not be afraid to make a mistake. Ask questions when information is unclear. Do not be embarrassed because someone else may benefit from your question. We will work together as a team to make your learning the best it can be. I look forward to a great year.
