

Onslow Virtual School to Attendance Zone School Transfer Request Form- High School

11-10-20

I understand by completing the transfer request form, I am requesting my child be transferred from Onslow K-12 Virtual School to their attendance zone school. I also understand and agree to the following:

- Beginning January 5, 2021, the Onslow K-12 Virtual School (OVS) will be the only remote only learning option for the Onslow County Schools. The attendance zone school will not provide remote only instruction during the Spring Semester.
- Currently, schools are operating in Plan B and students will continue to attend school 2 days face to face and 3 days remotely. The student is expected to attend school face to face according to the cohort he/she is assigned by the attendance zone school.
- With an anticipated move to Plan A at some point in the second semester, classes will be at or near full capacity. The mandatory social distancing requirement changes from 6 feet apart to a distance that is “the greatest extent possible.” Currently, other mandated safety requirements would remain in effect. (i.e. face coverings, frequent washing of hands, etc.)
- The attendance zone school will make every effort to schedule your child into the courses he/she requested for second semester at OVS but changes may be necessary.
- I have read the Parent and Student Handbook for the school my child will be attending and understand the expectations of the attendance zone school.

If you are willing to adhere to the guidelines above and would like to request a transfer from OVS to your child’s attendance zone school, please click on the link below to complete the request form. The deadline to request a transfer is 11:59pm on December 1, 2020. Completed forms are date and time stamped at the time of submission to the district.
