NCVPS offers three (3) Health Education and P.E. high school courses. These courses DO NOT include content that covers the CPR graduation requirement. The CPR graduation requirement is covered as an 8th grade (middle school) health objective. If your student is enrolled in one of the three (3) NCVPS Health Education and/or P.E. high school courses, please make arrangements for the student to take CPR through your school resources to fulfill the high school graduation requirement. See our Health and Physical Education Prerequisites, Strategies, and Best Practices Checklist for all the details on health and P.E. programs. This also includes our parental health permission form that schools can use.
