

Printing Student QR Codes in NCEdCloud (Applicable Only to Grades K-3)

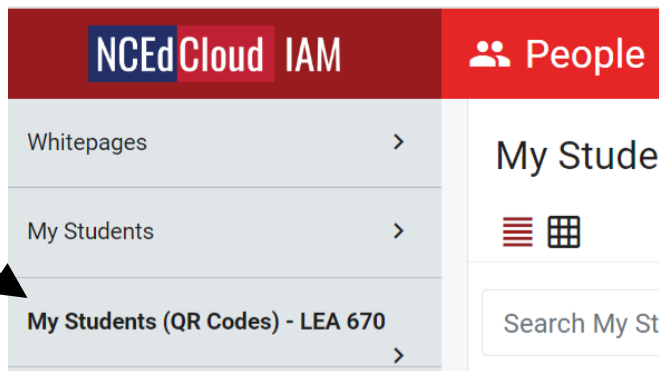

1. Login to your teacher NCEdCloud Account.

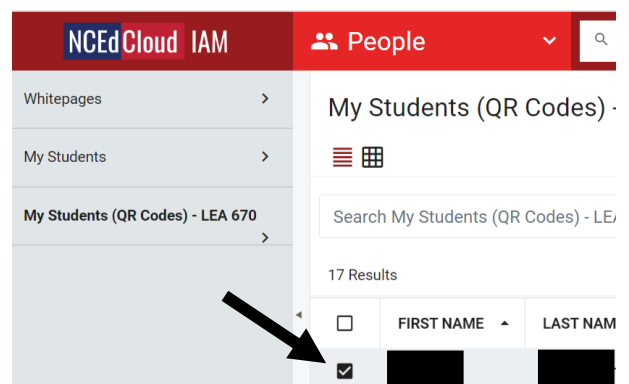

2. Click on Applications at the top and change it to People.

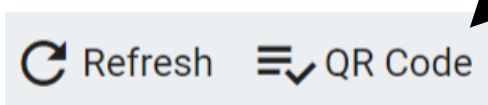

3. Click My Students (QR Codes) - LEA 670.

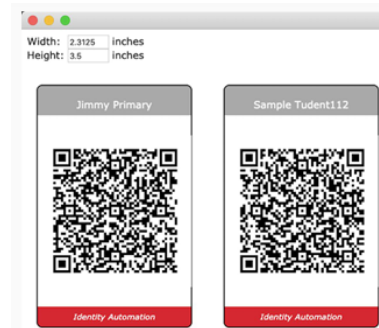

4. Select the checkbox next to the student or for a class set, select the top box.

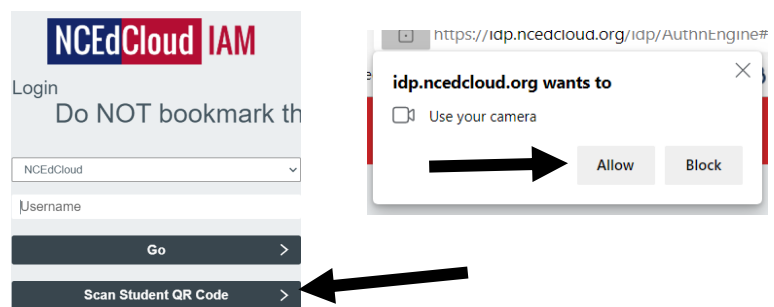

5. Click QR Code at the bottom of the screen. Badges will be printed with multiple QR codes per page if selecting more than one student and their names will be listed on the top of the badge.

6. Depending on the browser, right click to print or File, Print.

7. Students will select "Scan Student QR Code." Cameras will need to be enabled for the code to scan.

****If you change the student's password, then the QR code will change too.**
